

GDR Cophy JAX Tutorial: a starter

J.E Campagne (IJCLab)

Nov 2024

Theme: get some first flavour of JAX

You can run the tuto on Google Colab: to do so goto

https://github.com/jecampagne/JaxTutos/blob/main/JAX_Cophy_tuto.ipynb

and click on the `Open on Colab` flag.

Notice that in the live of this tuto I will skip some parts of the nb that one can study later on.

The code in this notebook is running smoothly on a single CPU.
